Submission ID: 161834

Timestamp: 7/27/2026 3:52 AM UTC

Name: Andrew Rhoden

Challenge ID: 201

Challenge Title: Credit Card Concealment

This report has not been published by a curator. Experience Cyber cannot vouch for its accuracy.

Scenario

One of DASWeb's interns was caught leaving the premises with a USB drive, which is against company policy. Upon initial inspection, it seems the drive only has pictures of his cats. You're tasked with taking a deeper look at the drive to see if any data is being hidden on the drive and to report it if found.

Duration

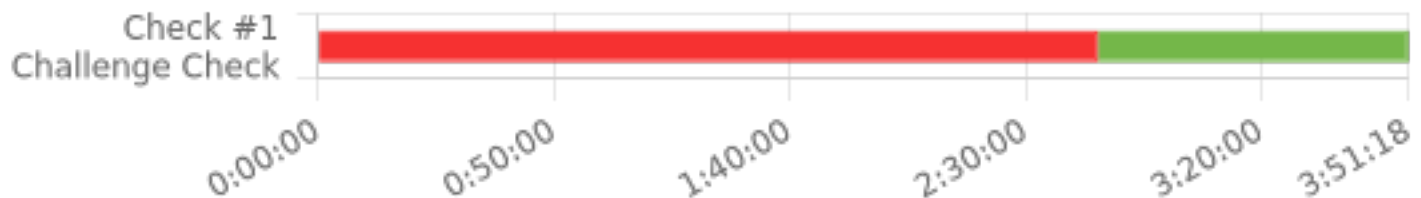

3:51

Final Check Details

✓ Check #1: Hidden Data on Drive Reported Correctly

Full Check Pass

Full: 1/1

Element

Cybersecurity

Work Role

Cyber Defense Forensics Analyst

DCWF Tasks

- 1082: Perform file system forensic analysis.

Knowledge, Skills, and Abilities

- 90: Knowledge of operating systems.
- 287: Knowledge of file system implementations (e.g., New Technology File System [NTFS], File Allocation Table [FAT], File Extension [EXT]).
- 360: Skill in identifying and extracting data of forensic interest in diverse media (i.e., media forensics).

- 1088: Skill in using binary analysis tools (e.g., Hexedit, command code xxd, hexdump).
- 1092: Knowledge of anti-forensics tactics, techniques, and procedures.
- 1100: Skill in identifying obfuscation techniques.
- 1158: Knowledge of cybersecurity principles.
- 1159: Knowledge of cyber threats and vulnerabilities.
- 3513: Knowledge of system administration concepts for Unix/Linux and/or Windows operating systems.
